Hi Michael and Dan,

This likely is too much information, but per our discussion today, here are the follow-up items:

LINKS

CA CIWQS Database Link: <http://www.swrcb.ca.gov/ciwqs/publicreports.shtml>

EPA SharePoint Sites:

https://usepa.sharepoint.com/sites/OECA_Community/CAFO-Workgroup/SitePages/Home.aspx (See biosecurity protocols and inspection checklist folder for EPA Region 5 inspection dairy checklist)

https://usepa.sharepoint.com/sites/R2_Work/enforcement/WCB/SitePages/Home.aspx (See completed 2016 inspections by EPA Region 2 under activities not tasks – for example, on page 2 is Marick Farms inspection and violation letter)

Facility Universe:

See word attachment for estimated universe numbers as of May 2015. Listed contacts are included. In RB5, Doug Patterson is the 5F contact at 559-445-5116.

For the facility in RB3, see NOI submitted in 2013 (pdf file). The facility's website, Metzger Farms, is available at: <http://www.metzgerfarms.com/index.cfm>

The Board didn't proceed with an NPDES permit because the number of animals fell below the 5,000 duck threshold (for liquid manure handling systems) and the Salinas River is about 1 mile away. The RB3 animal agriculture contact is Sheila M. Soderberg at 805-549-3592. For RB1, an NPDES permitted facility was located in Humboldt County, but the permit may have been terminated since the permit coverage ended in 2014 – see old permit at http://www.waterboards.ca.gov/northcoast/board/decisions/adopted_orders/pdf/2008/080919_08_0020_NPDES_HumboldtCreamery.pdf

Other Resources

PPT slides were attached to calendar invite for CAFO review on March 6th

Example of RB1 State Inspection Write-up with Maps are attached.

Thanks,
Becky Mitschele
